## PRESIDENT'S Message

### TO MY FCBA FAMILY,

This is my very last President's Message for the FCBA Newsletter, and it is not any easier to write than any of the 11 that came before it. In fact, knowing there won't be any more, it is actually more difficult. (I should mention that I don't know who reads this column. Sometimes I write something I think is really important to share, and I hear ... nothing. On the other hand, sometimes I write something that seemed small in the moment, and I receive numerous emails noting that I mentioned it. I think the mystery of not knowing who I'm reaching is magnified by the fact that this entire FCBA year has been a virtual one. Anyway, if you've gotten this far, a huge thank you for reading, and I'm glad to be reaching YOU! Even if it might be just the two of us.)

As this unusual year comes to a close, there are many, many people to recognize and thank, and I look forward to doing so at the Annual Meeting on June 29 and in related materials. The ways that every leader within the FCBA pitched in, collaborating on an entirely new event lineup, moving more traditional content to online platforms, leveraging the virtual format to foster stronger connections around the country, and fundraising with innovative and creative ideas, has been a wonder to watch. I'm truly honored to have served as President during this challenging time, and I hope each person who has been part of making this year successful feels proud about your contributions.

These contributions are really what leadership in the FCBA is all about. As fantastic as the members of the FCBA office staff are (and they are really fantastic), none of what makes an "FCBA year" can happen without volunteer leaders. So let's talk about why the FCBA needs your leadership, as well as how you can benefit from a leadership role in the FCBA.

First, there is not just room but an affirmative need for leaders in the bar who bring different skills and backgrounds to their positions. If you are an FCBA member and you are interested in continuing to make the FCBA a bar like no other, you can be a leader. It's that simple. There are all kinds of leaders and all different ways to lead. If you look at the officers of the FCBA or the chairs of the FCBA Foundation and say, I'm not like those people, so I can't be a leader in the FCBA, you're shortchanging both yourself and the association. Relatedly, whatever your lived experience is and what your career arc has been, you bring a unique perspective to the FCBA. We need as many different unique perspectives as possible in our leadership. Like Commissioner Starks explained in our discussion at the virtual Annual Seminar, having a wide range of voices – and particularly diverse voices – as part of the discussion will always yield a better product.

## Recommended Changes to the FCBA Constitution

This winter the Constitution and Bylaws Committee (Yaron Dori, Diane Holland, Megan Anne Stull, and Josh Turner) reviewed the FCBA's Constitution to ensure that it accurately describes the FCBA's current practices and provides a solid foundation for the future. The Committee proposed several areas for clarification and improvement, which were approved by the Officers and Executive Committee and recommended for presentation to the membership for a vote to be taken at the FCBA Annual Meeting, which will be held June 29, 2021.

The proposed changes to the Constitution would: (i) provide the FCBA with greater flexibility in how it describes itself in marketing materials; (ii) clarify the FCBA's evolving focus on technology law and policy; (iii) update the description of the membership application process to more accurately reflect the role of the Executive Director in that process; (iv) update the description of the Assistant Secretary role to more accurately reflect current practices; (v) update the description of the Young Lawyers Committee representative to the

Executive Committee to more accurately reflect current practices; and (vi) make other ministerial and conforming changes.

The proposed changes to the Constitution have been posted to the FCBA's website. FCBA members are invited to review proposed changes and to raise any concerns to FCBA President-Elect Megan Anne Stull at [stull@google.com](mailto:stull@google.com) prior to the FCBA Annual Meeting.

## Get to Know an FCBA MEMBER

### Clint Odom

By: Laura Phillips

As we are ever so slowly easing back to “real” life, I have continued for the time being to interview remotely for this column. So I was sorry not to catch up in person with Clint Odom, who is currently Vice President Strategic Alliances and External Affairs for T-Mobile. Clint arrived at T-Mobile from a several year stint at the National Urban League where, among other things, he learned all about podcasts and used interviews with public figures to appeal to broader audiences and connect with them. It was great to spend a little time hearing what T-Mobile and Clint are doing to connect with diverse communities to promote digital and financial literacy as well as to promote civil rights. In part, Clint’s role is to ensure that other voices are heard by lawmakers and regulators in areas of communications law and policy.

**Q:** What attracted you to the field of communications?

**A:** After graduating from college in 1989, I moved from Louisiana to Washington for any kind of political or legal work I could find. (Not a great strategy for a job search today.) The first employer to extend to me a full-time job offer was a trade association, UTC (now The Utilities Technology Council). As luck would have it, UTC was then at the forefront of the fledgling personal communications service rules and auction process that brought more commercial wireless choices to many. My career choice was pure luck and great timing.

**Q:** Have things unfolded in your career more or less the way you planned?

**A:** No. I thought I was going to be an appellate litigator because I loved moot court competition and did a federal clerkship. After realizing that the field is extremely narrow, I really became more interested in finding solutions to problems outside of the courtroom. Spending a year photocopying FCC comments in the FCC reference room and watching FCC open meetings got me hooked on the FCC. I knew I wanted to be an FCC legal advisor at some point in my career. Did that twice. I wanted to work in the field with a public company. Did that twice. My path was not straight, though. I took a detour through the United States Senate and a storied civil rights organization. I really wanted to find out why all the head

honchos in government affairs offices served in Congress at some point in their career. Turns out, after watching my former boss and current Vice President swear in my former boss and current NASA administrator, and after watching my former contracts law professor win a Senate seat, I have to say that working in the Senate was a good detour.

**Q:** What’s the most interesting or challenging thing that you’ve done in your current position?

**A:** I’ve been on the job for about 100 days, but my colleagues worked for about 700 grueling days to get through a very important merger in the mobile wireless industry. I can’t complain about any challenge I’ve had at T-Mobile. I do have the privilege of working with colleagues I have known for many years in different phases of my career – at the FCC, on the Hill, and the private sector. I love doing “introductory” Zoom calls only to realize I’ve worked with the folks I’m encountering before. That’s pretty cool.

**Q:** Is there something interesting or someone who surprised or impressed you during your career and why?

**A:** It’s nearly impossible to identify just one person. So, I’ll just focus on something interesting. When she was a Senator, Kamala Harris introduced legislation that had been introduced and

defeated 200 times over the course of 100 years. In fact, in 2005, the United States Senate formally apologized for its role in blocking the legislation from passing. The legislation made lynching or an attempt a federal crime when the victim is targeted by race or other characteristics. Not only did Senator Harris pass the legislation once, but she passed it twice, unanimously. That legislation has strong historical parallels to the George Floyd Justice in Policing Act. Should the George Floyd bill pass the Senate, it would go a long way in righting historic wrongs fought for by groups like ADL, NAACP, and others for decades. Federal prosecutors will be able to prosecute those involved in the extrajudicial murder of someone by a group of people motivated by hate. We are standing on the precipice of passing that law. And because I wanted to see why former Hill staffers got good jobs in the private sector, I got to be a small part of that history.

**Q:** What do you enjoy reading?

**A:** I love historical non-fiction and policy books. I just finished *The Whiteness of Wealth: How the Tax System Impoverishes Black Americans--and How We Can Fix It* by Emory Law professor Dorothy A. Brown. I am about to begin *Persist* by my former contracts professor Liz Warren. I was serving in the Senate when she was censured for reading a letter by Coretta Scott King on the Senate floor. That act may well have launched her presidential run. She was presidential timber even when she was my law school professor.

**Q:** Can you share perspective on the pitfalls to avoid or other career advice for those who are just getting started in the communications field?

**A:** Remaining in a safe comfortable employment situation is more dangerous than taking what may seem like a big career risk. When you think about it, change always comes even if we close our eyes and try to avoid it. So be prepared for change by keeping your skillsets current. For example,

with no formal training or experience, I was thrown into podcasting a few years ago and it was a great experience and I interviewed a wide range of people on a number of really fascinating subjects. It didn't end up as a profession for me, but it introduced me to some interesting public figures and taught me how to continue a mission even while stuck at home during the pandemic.

**Q:** Is there something interesting about you that people are not generally aware of that you're willing to share?

**A:** I met my biological family a few years ago. I was adopted as an infant but met both of my biological parents a few years back. I have three half-brothers and have finally figured out answers to

questions about myself that could not be explained by my upbringing.

**Q:** How has your life changed as a result of COVID-19?

**A:** I have come to understand that we will never fully understand the vast gaps in wealth, education, health, and opportunities in this country that have been exposed by the pandemic. We have so much work to do.

**Q:** How long have you been an FCBA member and what is the value of FCBA membership?

**A:** I've been an FCBA member on and off since my time as an associate with Dow Lohnes & Albertson (now Cooley, LLC) in the 1990s. The FCBA is very much like family. When I attend the occasional Chairman's Dinner (and

I hope that happens again soon), I run into people who gave me my very first job opportunities or work assignments. People like Jeff Sheldon, Bill Kennard, Len Kennedy, Kathleen Ham, John Feore and even Laura Phillips.

### Kurt Wimmer

Kurt Wimmer, a partner with Covington, and long-time member of the Association, died April 4 of cancer. He was 62.

Wimmer was a native of Kansas. He studied journalism at the University of Missouri and earned masters and law degrees from Syracuse University, the law degree in 1985.

His career with Covington spanned 30 years. He joined the firm in 1991, and managed the firm's London office from 2000-2003.

In 2006 Wimmer left Covington to become Senior Vice-President and General Counsel of Gannett Co. He served in that capacity until 2009, when he returned to the firm to take a leadership role in expanding the firm's digital media practice. Wimmer was widely recognized for his work in the field of data privacy, cybersecurity, and media. Covington Chairman Doug Gibson said Wimmer "was an international leader in privacy, cybersecurity, technology, and media law,

among many other accomplishments . . . . He was a tireless pro bono advocate as well -- representing many journalists and other organizations advancing press freedom and playing a leading role in the firm's work for the International Paralympic Committee."

Retired Covington partner Jon Blake observed to CommDaily that Wimmer was a staunch champion of journalism, his great-grandparents having experienced destruction of their printing press at the hands of the Nazis. After the fall of the Iron Curtain in 1989, Wimmer advised Eastern European nations about laws protecting press freedoms.

Wimmer was a member of The Media Institute's Board of Trustees and was chairman of the Institute's First Amendment Advisory Council. He served on the Board for 17 years, until last year, and wrote numerous book chapters, issue papers and court briefs for the Institute.

He was also past chair of the Privacy and Information Security Committee of the American Bar Association's Antitrust Section. His clients at Covington included

Facebook, Microsoft, Samsung, Accenture, General Mills, ExxonMobil, Instagram, WhatsApp, Evernote, Cloudflare, CBS, the National Football League, and the National Hockey League.

Covington partner Gerry Waldron observed that, while Wimmer was a tough lawyer who pursued his clients' interests zealously, he was remarkable for "his overwhelming decency." Wimmer had a "way of bringing out the best in other lawyers, including those on the other side." Indeed, as testimony to that it happened not infrequently that, after completing a matter, the opposing party and/or his counsel would refer work to Wimmer.

Wimmer was a music aficionado. He was a regular at the 930 Club in Washington, as well as Merriweather Post Pavilion, and Wolf Trap.

Wimmer is survived by his wife, Stephanie, and three adult children, Max, Nick and Gracie.

## The Federal Communications Law Journal

The *Federal Communications Law Journal* has long been an important source of legal scholarship on communications issues, and the FCBA is proud to offer the journal as a benefit to our members.

FCBA members may now decide how they would like to receive the journal. The *FCLJ* itself will continue to be published in hard copy, however, rather than receiving hard copies as a default, we'll be distributing electronic links to the content.

## PRESIDENT'S MESSAGE

CONTINUED FROM PAGE 2

Second, we are a growing and evolving industry and organization that also has strong roots. We want to continue to produce programming and serve practitioners in some of the more traditional areas of the FCBA while elevating and expanding our content to fulfill our new branding as the Tech Bar. There is room for all of this, and we need leaders to help make it happen. Whether as a co-chair on the Mass Media Committee or taking an ad hoc role planning a series on online platform regulation (or both!), the substantive knowledge and professional network you bring to the FCBA is extremely important. The FCBA cannot be everything to everybody, but we can be something for everybody so long as we have hands-on leaders from various industry sectors.

Third, we are not a bar association that is solely for (or by) law firm lawyers. If you are a government, academic, or

nonprofit lawyer, please consider seeking out a leadership role in the FCBA. Our bar is stronger when all of the players in telecom/media/technology law and policy are represented in leadership positions, in program planning, on panels, and more. We have created a new membership category for nonprofit attorneys and non-attorneys, and we hope this will help recruit even more nonprofit members – who will, in turn, volunteer to lead.

How can taking on a leadership role benefit you? It's hard for me to begin to quantify the answer to that question. You get a chance to work with your friends (and make new ones). You produce programs and events that teach and bring together members of the bar. You elevate your professional profile and have a chance to shine in front of senior practitioners whom you otherwise might not have an opportunity to meet. You guide and shape aspects of the FCBA and even get to build entirely new programs. And if you stick with it for a very long time, you might, at some point, get to lead the FCBA and

use that platform to talk about issues like mental health; diversity and inclusion; racial justice and equity; women in law and tech; accessibility; or whatever your own personal priorities may be.

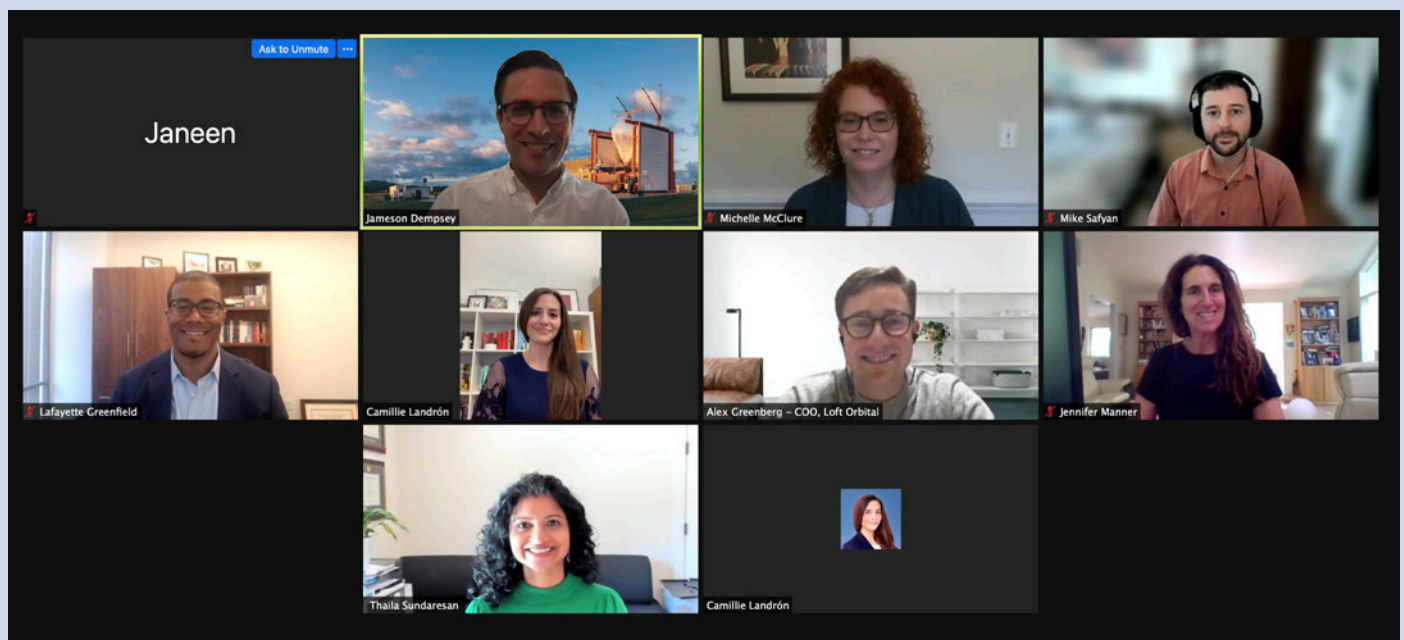

Thank you so much for the opportunity to serve this wonderful organization that is, to me, like a family. I may be moving on, but I look forward to staying in touch with all of you. In particular, if I can help as you consider exploring leadership roles within the FCBA in the coming years, please don't hesitate to reach out.

Congratulations to incoming President **Megan Stull** and all of the election winners to be announced later this month. I'm excited to see what's in store for the FCBA in 2021-22. I know it's going to be a great year, and I am hopeful I'll have a chance to see some of you in person soon! Don't forget to get #FCBAconnected.

**Natalie G. Roisman**  
FCBA President
