PRESIDENT'S Message

DEAR FCBA MEMBERS,

Happy New Year! I hope you were able to enjoy a restful and refreshing holiday season. I was so pleased to be able to travel to visit with my family and to reconnect with friends. In particular, I relished the opportunity to see some friendly FCBA faces in person at the 39th Annual Institute on Telecommunications Policy & Regulation on December 8. The ability to be in the same room with FCBA members made my heart soar, and I was so impressed with the content of this year's Institute. It made me very excited for the programming that we have planned for 2022.

Before I discuss our January events, I wanted to highlight two important opportunities to serve the FCBA. The first is through the nominations process, where you can help to identify the next generation of FCBA leaders. Please join us on January 13 at 2:00 p.m. Eastern via Zoom for an information session to learn more about the process. Members of the FCBA Executive Committee, FCBA Foundation Board of Trustees, FCBA Diversity Committee, and FCBA Nominations Committee will provide details on the election process, the types of roles we're seeking to fill, how being elected to FCBA office can enhance your professional development, and how you can help to steer the future of technology, media, and telecommunications law and policy as a leader of the FCBA. All interested members are encouraged to attend. And, don't forget to submit your nominations to the Chair of the Nominations Committee, **Natalie Roisman**, via email to nroisman@wbklaw.com, with a copy sent to FCBA Executive Director **Kerry Loughney** at kerry@fcba.org. Please give the name of the member to be considered for nomination, a brief statement about why the individual is being nominated, and the position for which they are being nominated. The deadline is Wednesday, January 19, 2022 at 5:00 p.m. Eastern.

The FCBA also is seeking volunteers for the 28th Annual National Telecommunications and Technology Moot Court Competition, which will be held at the Catholic University of America, Columbus School of Law on Friday, February 4 and Saturday, February 5, 2022. The competition seeks attorneys to serve as Briefs Judges and Oral Arguments Judges. Briefs Judges will receive submitted briefs on or around Wednesday, January 19 and they will be due back on Wednesday, February 2. Oral Arguments Judges are needed for the competition rounds on both Friday, February 4 and Saturday, February 5. If you would like to volunteer for either of these opportunities, please contact **Chris Huff** at cua.nattelmoot@gmail.com or **Lee G. Petro** at Lee.Petro@PillsburyLaw.com by Monday, January 17. No prior experience is necessary. I have personally judged this competition for many years, and I am always impressed with the enthusiasm and brilliance of our technology, media, and telecommunications law students.

Meeting of the FCBA Book Group on Technology in Fiction

The FCBA's Technology in Fiction Book Group will meet virtually in late March or April (stay tuned for details) to discuss Mary Shelley's classic short novel "Frankenstein," also known as "Frankenstein: Or, the Modern Prometheus." Like the myth of Prometheus, who earned Zeus's eternal wrath for giving fire to mortals, Shelley's book is deeply concerned with the relationship between humanity and scientific advance. What does this two-century-old novel have to teach us about artificial intelligence, gene editing, quantum computing, and a host of other emerging technologies?

We invite all FCBA members to join our discussion. There are many editions of *Frankenstein*, and any one will do, so we encourage anybody who is interested to go ahead and start reading! If you have any questions, or would like to sign up to participate, please email Russ Hanser at rphanser@gmail.com.

PRESIDENT'S MESSAGE

CONTINUED FROM PAGE 2

Now for our January programming. We're starting off the month with our Eleventh Annual Trivia Night sponsored by the Young Lawyer's Committee. Like last year, this event will be held virtually over the Zoom platform. Grab some friends, a beverage, and a snack and log-on on Tuesday, January 18 at 5:30 p.m. Eastern for some fierce team competition.

The excitement continues on January 19 at 4:00 p.m. Eastern, when the FCBA's eleven nationwide chapters and the Emerging Issues in Tech Committee will co-host a program on Zoom entitled "Perspectives on Technology & Regulation in the Internet Age." This program will examine the development of Internet technologies, whether regulation has kept pace, and how we should think about digital law and policy for the future. I will have the honor of conducting a fireside chat with Vint

Cerf, Vice President and Chief Internet Evangelist for Google and a 2005 recipient of the Presidential Medal of Freedom. In addition to once helping me repair the office photocopier, Vint is an American Internet pioneer who is recognized as one of "the Fathers of the Internet." After hearing from Vint, expert panels will discuss how the internet-enabled world has transformed the information ecosystem and examine whether and how policy approaches and regulatory models should adapt or evolve to meet new and novel challenges. I hope you will join us for what is sure to be a memorable event.

We'll also examine important issues in broadcasting this month. On January 27 at 1:00 p.m. Eastern, our Mass Media and Video Programming & Distribution Committees will co-host a CLE on broadcast ownership and diversity. This program offers an excellent opportunity for FCBA members to learn directly from FCC staff about existing radio

and television ownership regulations, as well as the timing for the agency's next quadrennial review. The course also will turn a critical eye to broadcast ownership and diversity from an industry and public interest perspective, looking at current conditions and how to make improvements for the future.

There is so much more coming up in 2022, and I can't wait for you to learn about it. Please keep an eye on our Twitter feed and LinkedIn page for more announcements. And, don't forget to register and reserve your room for the FCBA Annual Seminar at the Homestead in the first weekend of April. Find out more in this month's newsletter!

All the best,

Megan Anne Stull

An Update from the FCBA Foundation

In this FCBA Foundation update we catch up with University of Colorado law student **Stacey Weber** to discuss how the FCBA Foundation has influenced her journey. Stacey is the recipient of a Foundation summer internship stipend as well as a law school scholarship.

Q: What can you tell us about your summer internship?

Over the summer, I worked as a student volunteer law clerk with the Office of Policy Analysis and Development at the National Telecommunications and Information Administration. I worked closely with the team preparing the NTIA letter for the triennial Digital Millennium Copyright Act rulemaking, and also had the opportunity to assist with comment review and editing a report on Software Bill of Materials in response to an Executive Order. I continue to find that the more I engage with this area of law (or, rather, the many areas of technology and communications law), the more I am driven and delighted to engage and—hopefully—contribute.

Q: What can you tell us about your school year?

This school year has already opened up several incredible opportunities. I

am in my third-year and am executive editor at University of Colorado Law Review, second to the editor-in-chief. In addition to IP and privacy classes, I am a student attorney within the University of Colorado Samuelson-Glushko Technology Law and Policy Clinic. This semester in Clinic, I had the opportunity to publish a white paper on access to government edicts in the state of Colorado and to draft comments for an FCC rulemaking. Finally, I just wrapped up a remote externship with the Commercial Law Development Program (CDLP) in the Office of the General Counsel within the Department of Commerce. With CLDP, I conducted research and supported the drafting and editing of reports and presentation materials for domestic and foreign audiences regarding international information and communications technology policy and engagement. Next semester, I look forward to continuing to work in Clinic and an externship with the XR Association. This year is certainly busier than anticipated for my final year, but I'm loving engaging in these valuable experiences.

Q: How have these experiences enhanced your career path?

I can't emphasize enough the impact that the support of the FCBA has played and continues to play in making this

Stacey Weber

career path possible for me, on several levels. The critical, practical implications of your generous financial support have allowed me to seek unpaid positions in public service that have provided invaluable experiences, as well as introductions to some of the most incredible people I've ever met. This support has

also provided the bandwidth for me to continue building on these opportunities and connections this school year, allowing me to fully engage in my final year of school and providing both the awareness and the ability to pursue opportunities post-graduation nationwide that otherwise would have been out of reach.

Thank you so much for the special honor and support of being awarded the FCBA summer internship stipend and law school scholarship. They are deeply meaningful to me and have helped me pursue this career.

The FCBA Foundation is a non-profit charitable and educational organization. The Foundation's success is a direct result of the generous financial support of individual FCBA members and their employers, as well as the time, talents and energy that members bring to the Foundation's activities. Through your generous donations, the Foundation supports communications-related law student stipends and scholarships, as well as college scholarships for local area high school students.

In addition to direct **donations**, you can support the FCBA Foundation via **Amazon Smile** and the **Combined Federal Campaign** (CFC Code: 31092).
