### Tuesday, March 20, 2:00 – 6:00 p.m. EST 13th Annual ABA/ FCBA Privacy and Data Security Symposium The Changing Cybersecurity Landscape for Communications Companies and Their Law Firms: Are You Ready?

The FCBA Privacy and Data Security Committee and the ABA Forum on Communications Law will hold the 13th Annual Privacy & Data Security Symposium on **Tuesday, March 20, 2018** from **2:00 – 6:00 p.m.** This program will be held at Arnold & Porter Kaye Scholer LLP, 601 Massachusetts Avenue, NW. The

program will also be broadcast live to seven remote Arnold & Porter locations across the country.

Within the first five months of his administration, President Trump signed an executive order designed to improve the nation’s cybersecurity efforts. Executive Order 13800 was generally hailed by both Republicans and Democrats as timely and important, as destabilizing cyberattacks like the WannaCry and NotPetya ransomware outbreaks demonstrate implementing a robust national cybersecurity posture and defending critical infrastructure cannot wait. While the Executive Order produced detailed analysis and reports on the country’s cybersecurity framework, some experts clamor for more aggressive action by the Trump Administration, especially with respect to our nation’s communications systems. This year’s Symposium will examine this Executive Order, along with Congress, the FCC, and federal and state agency attempts to bolster the nation’s cyber defenses. The individual sessions also will discuss the state of cyber law and recent cybersecurity incidents and risks to the telecommunications and media industries, including law firms. We will discuss the ABA and state bar association model codes and formal opinions and explore best practices for staying ahead of and responding to increasingly sophisticated cyber threats.

If you are an FCBA member who will be attending in person in Washington, DC, [click here](#) or use the form on [page 32](#). \*Note that ABA Forum on Communications Law members may not register online. Please download the form and fax, mail, or email it.

To register to attend at one of the seven remote Arnold & Porter locations, use the form on [page 33](#).

If you are interested in attending via teleconference and are located outside of the Washington, DC metropolitan area, please contact [wendy@fcba.org](mailto:wendy@fcba.org).

**Julie Kearney**, President, FCBA; and Vice President, Regulatory Affairs, Consumer Technology Association

### AN OPENING ADDRESS: POLICY PRIORITIES FOR THE TRUMP ADMINISTRATION

A change in administration between parties always brings with it a change in policies and priorities. Over a year into the Trump administration, David Redl, Assistant Secretary for Communications and Information and Administrator at the National

Telecommunications and Information Administration in the U.S. Department of Commerce will provide an overview of the administration's priorities with respect to cybersecurity matters.

**DAVID REDL**, Assistant Secretary for Communications and Information and Administrator, National Telecommunications and Information Administration, U.S. Department of Commerce

2:40 – 4:10 p.m.

### SESSION I – STATE OF THE LAW AND ENFORCEMENT

Government entities took both proactive and reactive steps to address various cybersecurity concerns in 2017. Particularly in Congress, data breach notification and data security issues raised alarm among lawmakers following the Equifax hack exposed in August. However, other efforts, such as those by states and the executive branch have sought, in part, to be more proactive in countering cyber threats. Federal and state entities addressed cybersecurity concerns through a variety of initiatives, including providing more funding for improved security measures, requiring government agencies or businesses to implement specific types of security practices, increasing penalties for computer crimes and assessing threats to critical infrastructure. Session I will examine enacted measures to protect and strengthen the nation's cybersecurity framework. Further, the panel will discuss what more federal and state governments must accomplish to ensure robust protections against growing cyber threats.

### BREAK

4:30 – 6:00 p.m.

### SESSION II – REQUIREMENTS AND BEST PRACTICES FOR STAYING AHEAD OF AND RESPONDING TO CYBER THREATS

Major cybersecurity attacks are increasingly common and sophisticated, affecting large and small organizations in the private and public sectors. Communications companies and law firms are both particularly prized targets for cybercriminals. The potential impact of a coordinated attack on an organization, its brand and its customer trust is significant, regardless of whether or not an attack results in data breaches or data theft. Cybersecurity against today's threats requires full attention and engagement across an organization, including its affiliates, suppliers/vendors, and professional companies, such as law firms, extending well beyond the realm of IT. Session II will discuss cybersecurity prevention strategies to help mitigate communications companies and their law firms' risks for inadvertent disclosure of confidential information in addition to identification of legal requirements and best practices to stay ahead of emerging threats.

*Moderator:*

**Adrienne Fowler**, Co-Chair, Annual Symposium; Co-Chair, FCBA Privacy & Data Security Committee; and Partner, Data Privacy, Security & Use, Harris, Wiltshire & Grannis LLP

## Wednesday, April 4, 6:00 – 8:15 p.m. Space Traffic Management

The FCBA International Telecommunications Committee will sponsor a CLE on **Wednesday, April 4** from **6:00 – 8:15 p.m.** entitled “Space Traffic Management.” This program will be held at Sheppard, Mullin, 2099 Pennsylvania Avenue, NW, Suite 100.

We are at a very exciting time in the further development of space for communications, manned missions,

commercial ventures and other innovative uses. With this increased usage, whether it is constellations of non-geostationary orbit satellites, nanosats, increasing launch activities, manned missions or other commercial ventures, this challenges the current regimes governing space management. This CLE will explore this area and how industry, the government and others are responding to this challenge domestically and internationally.

## Agenda

**6:00 – 6:05 p.m.**

### **WELCOME AND INTRODUCTIONS**

**6:05 – 7:05 p.m.**

### **STAYING ETHICALLY GROUNDED THROUGH LATERAL COMINGS AND GOINGS**

The panelists will discuss ethical issues you should consider when changing firms, or when hiring lateral attorneys, how to safeguard the firm's client base and client confidentiality when a colleague leaves, and the rules governing notification to clients when leaving a firm. The following topics will be discussed:

- How and when should a departing lawyer (or the firm) notify existing clients? Who has the right to the client's file? What happens if the client owes money? Can a lawyer be guilty of dishonesty in taking clients or other staff in a lateral move? Of misconduct in "abandoning" a client? What about the lawyer's right to compete?
- What imputed conflicts apply when an attorney changes firms, either with clients or without clients? Do jurisdictions differ on this question?
- Would ABA Rule 1.6 on client confidentiality or various state permutations (or lack thereof) ever preclude an incoming attorney from disclosing client information for purposes of screening conflicts?

**7:05 – 7:15 p.m.**

### **BREAK**

**7:15 – 8:15 p.m.**

### **ADAPTING TO NEW TECHNOLOGY AS AN ETHICAL ATTORNEY**

The experts will discuss the requirements for staying

technologically up-to-date, valuable digital tools for the competent attorney, some of the pitfalls in using social media, and the use of social media in adversarial cases. The following topics will be discussed:

- What are the affirmative obligations to use new technology to make legal service and support more accessible? Does the bar writ large have such a duty?
- How do the ethics rules apply to the use of social media by attorneys in their practice? What are the duties to use technology affirmatively and to defend against its adverse use in representing clients?
- What boundaries do ethics place on using social media to market or promote legal services?
- Are there geographic limitations that lawyers must heed now that technology makes practice anywhere possible?
- How do attorneys handle technology changes happening faster than bars can issue ethical guidance?

### FCBA Rocky Mountain Chapter and the Silicon Flatirons present "Cyber Risks in an IoT World"

**THURSDAY, MARCH 15, 4:00 – 7:00 P.M. (MOUNTAIN TIME)**  
**LOCATION: CABLELABS, 858 COAL CREEK CIRCLE, LOUISVILLE, CO 80027**

From DDoS attacks to ransomware to data breaches, there is no shortage of cyber threats in today's connected world. The risk to consumers, businesses of all sizes, and governments are only increasing with the rapid proliferation of connected devices known as the "Internet of Things" (IoT), many of which are highly vulnerable to exploitation. **Recent reports** conclude that the number of IoT devices has surpassed the number of desktops, laptops, tablets, and smartphones combined and is only expected to grow dramatically. The IoT promise of increased productivity, safety, and convenience is in jeopardy, unless cybersecurity is more fully addressed by all stakeholders.

With the constant barrage of cyber incidents and associated headlines, governments at all levels are taking notice and seeking to grapple with the rapidly evolving threat landscape. Cybersecurity is no longer the domain of the IT department, but rather a key area of governance for nearly all enterprises. This event will examine key elements of federal cybersecurity policy and the evolving risk landscape faced by enterprises.

Please register at <https://siliconflatirons.org/events/cyber-risks-in-an-iot-world/>. This program is free to FCBA members.

### Interested in Hosting an FCBA event?

The FCBA greatly appreciates the support of our members' firms and companies who provide space for our brown bag lunches, committee meetings, and CLE Seminars throughout the year. We are, however, always looking for new locations that can host FCBA events.

In general, we need conference rooms that can seat at least 30 people at tables for brown bag lunches and committee meetings and conference rooms that can seat at least 60 people theatre style for CLE seminars. Firms and companies hosting brown bag lunches provide beverages and desserts; firms and companies hosting CLE seminars provide beverages and snacks. Brown bag lunches are generally held from 12:00 – 1:30 p.m. and CLE seminars are generally held from 12:00 – 2:15 p.m., 3:00 – 5:15 p.m., or 6:00 – 8:30 p.m. Additionally, for CLE seminars we need facilities that can provide technology support for microphones for as many as six speakers on a panel, the ability to tie the house sound system into a teleconference bridge, and video projection capabilities for PowerPoint presentations. If your firm or company has the needed conference room facilities and capabilities and would be willing to host future FCBA activities, please email **Kerry Loughney**, [kerry@fcba.org](mailto:kerry@fcba.org).

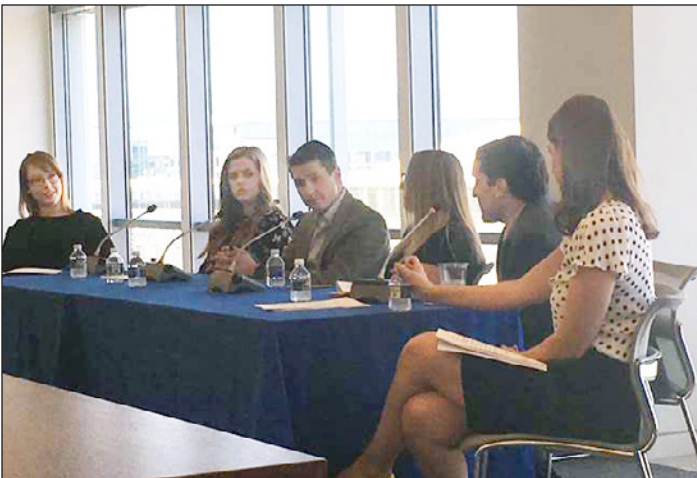

### Legislative and Young Lawyers Committees Brown Bag Lunch co-hosted by the Women in Government Relations Telecom, Tech, & IP Task Force

On February 20, the Legislative and Young Lawyers Committees co-hosted a brown bag lunch with the Women in Government Relations (WGR) Telecom, Tech, & IP Task Force about what is coming up in tech and telecom policy in 2018. Panelists from the FCC and the House Energy & Commerce Committee focused on policy efforts around spectrum and infrastructure as well as cybersecurity and process reform. The event, which was hosted by Arnold & Porter, was attended by over 30 FCBA and WGR members. Special thanks to panelists Brooke Ericson

(Chief of Staff and Media Advisor, Office of FCC Commissioner Michael O'Rielly), Jerry Leverich (Minority Counsel for Communications and Technology, House Energy & Commerce Committee), Matthew Pearl (Legal Advisor, Office of the Bureau Chief, FCC Wireless

Telecommunications Bureau), Lauren McCarty (Counsel, House Committee on Energy & Commerce), and moderators Kristin Strobel (Director of State Affairs, BGR Government Affairs) and Rachel Nemeth (Director of Regulatory Affairs, Consumer Technology Association).

### Are you an expert on a topic that should be the subject of a CLE or other FCBA event? Or can you recommend someone who is?

The FCBA invites you to send your ideas! Our committees are always looking for potential speakers from diverse backgrounds. Suggestions will be added to a list maintained by the Diversity Committee and the FCBA. This will help the Committee to provide the most inclusive suggestions possible when supporting other Committees in their programming efforts. Please forward any suggestions you have (including suggesting yourself!) to Kerry Loughney at [kerry@fcba.org](mailto:kerry@fcba.org).

## A Message on behalf of the FCBA Foundation

### DEAR FCBA MEMBERS,

In these early months of 2018, your FCBA Foundation Board of Trustees has been hard at work implementing three programs core to our mission: scholarships for local high school students interested in communications-related fields of education, including STEM programs, law, economics, and journalism; stipends for law students who choose to serve in communications-related public service internships for the summer; and scholarships for students in communications-related graduate legal studies. Our application process is in full swing, and by May we will have completed our extensive review and interview process. Last year, we awarded four-year college scholarships to 22 deserving Washington, DC high school graduates; stipends to 16 law school students who interned in public service positions; and scholarships to nine law school students for the 2017-2018 school year.

Of course, we cannot sustain our vibrant scholarship and stipend programs without financial help from our members. The amount of money we raise by **March 31** largely will determine how many students we can assist this 2017-2018 fiscal year. If you have not done so already, the Board of Trustees invites you and your organization to support the FCBA Foundation. Recognizing the social value and importance of our programs, many of our Named Scholarship donors are there for the Foundation year after year, as are

so many of you. Given the increasing interest in our scholarship programs, we would welcome broader participation across the FCBA's membership. Making a donation is simple: please [click here to donate online](#) or [click here to download the donation form](#).

As in the past, the Foundation will recognize donors throughout the year, and each of our donors will be listed in our Annual Report. To encourage members within organizations to work together to support our programs, the FCBA Foundation will recognize gifts by individuals or groups that choose to combine their contributions (for example, partners and associates in the same firm, employees of the same company, or old friends remembering a colleague) while also crediting the individual donors for their contributions.

**Named Scholarships.** Each year, we specially recognize those organizations that have funded Foundation scholarships in amounts of \$10,000 or more through our Named Scholarships program. Named Scholarship donors are acknowledged at our Annual Meeting luncheon in June and at the Chairman's Dinner in December, as well as in our Annual Report and newsletter. For FY2017, our Named Scholarship donors included:

- 21st Century Fox
- AT&T Services, Inc.
- Comcast Corporation
- Consumer Technology Association (CTA)<sup>TM</sup>
- Cox Enterprises, Inc.
- CTIA
- Google
- National Association of Broadcasters

- NCTA – The Internet & Television Association
- Sidley Austin LLP and The Sidley Austin Foundation
- Sinclair Broadcast Group
- The Karen Kincaid Scholarship Fund sponsored by Wiley Rein and Karen's Friends
- The Young Lawyers and Charity Auction
- T-Mobile US, Inc.
- Verizon
- Wilkinson Barker Knauer, LLP

**Honorary Degrees.** Organizations donating between \$2,000 and \$9,999 will be recognized with the following “honorary degrees”:

Masters of Media	\$5,000 - \$9,999
Bachelors of Broadband	\$2,000 - \$4,999

In FY2017, Time Warner Inc. and Willkie Farr & Gallagher LLP reached the level of “Masters of Media.” Davis Wright Tremaine LLP; Fletcher, Heald & Hildreth, PLC; Harris, Wiltshire & Grannis LLP; Latham & Watkins LLP; Lerman Senter PLLC; and Windstream became “Bachelors of Broadband.”

**Gems (Individuals).** In addition, individual donations will be recognized at the following levels:

Diamond	\$1,000 and above
Emerald	\$500 - \$999
Pearl	\$250 - \$499
Ruby	\$100 - \$249
Sapphire	\$99 and below

This past fiscal year, the Foundation recognized more than 100 individual FCBA members who donated to the Foundation.

For a complete listing of last year's Foundation donors, programming, and award recipients, [click here to download the 2016-2017 Annual Report](#).

## 22nd Annual FCBA Foundation Golf Tournament to be held Tuesday, June 5

### NEW COURSE! LOWER FEES!

On Tuesday, June 5, we will start a new chapter of the FCBA Golf Tournament by moving to the 1757 Golf Club in Sterling, Virginia. Managed by Billy Casper Golf, 1757 Golf Club is known for its pristine golf course and beautiful facilities, and is located close to downtown DC. Thanks to the shrewd negotiating skills of the Golf Committee, we were able to substantially reduce the cost of the

Tournament, so now there is no excuse to join your colleagues for a wonderful afternoon of fun.

In addition, even if you cannot attend, you can help “rebalance” the demographic tilt of the tournament by directly contributing to this effort by donating \$50 to the Golf Stipend fund. Such funds would be applied to assist young FCBA lawyers, law students, clerks, and interns with the golf fees and allow them to join the tournament.

But we aren’t changing everything! We’ve decided to stick with scheduling the Tourney in the afternoon this year so that our workaholic can get in a few hours at the office (or plenty of time to warm up on the range). Shotgun start will be at 1:00 p.m. followed by a delicious post-round Buffet BBQ Dinner.

As always, all of the proceeds from the Tournament go straight to the FCBA Foundation to support its wonderful programs, including the Scholarship programs and the Summer Legal Internship program. ### John Windhausen

John Windhausen is the Executive Director of the Schools, Health & Libraries Broadband Coalition (SHLB Coalition). He founded the organization in 2009 (with financial assistance from the Gates Foundation) to help anchor institutions, such as schools, libraries and hospitals, access and afford high-speed broadband connections. John has been in DC and working in a range of public policy positions for many years. His perspective on the ups and downs in a career was valuable as a reminder that no matter how prepared you may be, chance can have a way of intervening in all kinds of ways in life. John and I had a fun lunch discussing politics and life and I am delighted to share with you some of the highlights of our meeting.

**Q:** What attracted you to the field of communications?

**A:** I grew up in Manchester, New Hampshire and my parents were both teachers, my dad a professor at Saint Anselm College. As you can imagine with all the political campaigns that come through the state every four years, we felt very close to national politics and I think some of my interest in public policy came from listening to so many politicians present their own philosophies as they came through town.

I went to UCLA Law School which at the time had a communications program run by Charlie Firestone. It just so happened that the FCC came out to interview law students at UCLA in my third year and I took an interview slot to practice my interviewing skills. I guess my skills were at least somewhat honed, as I got a job offer. At that point I really was interested in getting to Washington DC, so I took the job and thought I'd figure out what I really wanted to do once I got to Washington and got my sea legs. Of course, it turned out that in 1984, the work in the FCC's Common Carrier Bureau was fascinating, including the divestiture of AT&T and the effort to promote competition through the first set of interexchange access charges. After a couple of years, however, I found that I did not always see eye to eye with the then FCC Chairman Mark Fowler, who had a very deregulatory approach to communications as a whole – remember the television as a toaster?

**Q:** So, what happened next?

**A:** When the Democrats took back the Senate in the 1986 midterms, I took the opportunity to go work on Capitol Hill. Chance played a role because one of my housemates played basketball with someone who worked on Capitol Hill and he happened to mention that there were job openings. So I sent up my resume the next day. Tom Cohen hired me as a junior staffer for the Senate Commerce Committee in 1987. That started a terrific nine-year stint working for the Committee, putting me in the middle of a wide range of communications law updates, such as the Cable Act, the FCC spectrum auction authority and of course, the Telecommunications Act of 1996. Looking back, while there were some issues that were partisan, the Commerce Committee was middle-of-the-road on most issues and I became good friends with my counterparts on the Republican side. That made it easier to bridge the gaps and get things done, which is unfortunately not as prevalent today.

Passing the 1996 Telecom Act was thrilling, and I knew nothing on the Hill could top that experience. So I went to work for a small public interest group called the Competition Policy Institute, a non-profit that worked on 1996 Act implementation issues. It was frustrating to see parties mis-characterize the Act and attempt to undermine the careful balance we created to enact it. The FCC did a miraculous job of adopting new rules under very strict

timelines, but ultimately tipped the scales too far in favor of resale competition, a decision that boomeranged a few years later. After a couple years, I left the Competition Policy Institute to become the President of ALTS, the Association for Local Telecommunications Service, a trade association representing facilities-based Competitive Local Exchange Carriers. These companies were the darlings of Wall Street in 1999, but succumbed to the Dot.com bust in 2001. Managing ALTS after the Dot.com bust was quite difficult; in one year our annual conference revenues shrunk to one quarter of what they'd been the year before and our staff of nine shrunk to three. Not a great time for us. Nonetheless, I had a plan to re-build the organization and in 2004 I distributed it by email to the ALTS board members. By strange chance, someone accidentally filed the ALTS strategic plan publicly with the FCC. I only learned of it when I received a call from a reporter during the Board meeting asking me to comment on the material in the ALTS strategic plan. Three days later, the ALTS Board asked me to move on, and I couldn't blame them. The story made it to the Washington Post, and my career was thrown for a loop. But later I learned that the job change probably would have happened anyway. The ALTS CEOs were already contemplating a merger with another association, Comptel, and it made sense for them to go in a different strategic direction with Republicans in control of the White House and Congress.

Following that episode, I opened a consulting practice that I ran from my home. I had three to five clients that I really enjoyed working with and I loved being able to spend more time with my wife and growing daughter. Then when the "stimulus" bill passed in 2009, I was approached by Microsoft about building a coalition to support the BTOP program. Oddly, the Gates Foundation approached me with same idea, which was perhaps not a coincidence. Luckily the two could square the circle and the SHLB Coalition that was born became a client of mine. At first my role was just to conduct group phone calls, create a website and talk

about the value of anchor institutions' need for broadband. Then we became involved with E-rate reform, the National Broadband Plan, and other issues. The Coalition decided that we were more than a short-term project and should become a long-term institution. So we incorporated in 2013, began charging member dues, formed a Board and I became Executive Director, still on a part-time basis. We then received a nice grant from the Gates Foundation, which expires this year. The Board decided to make me full-time in 2017 so that I could dedicate my time to making the Coalition sustainable. After 13 years of working from home, I had to make the adjustment to go into an office every day. I now have two wonderful staff members, so SHLB now has about the same number of staff that I used to have with ALTS when I left. I hope my work for the SHLB Coalition will have a happier ending.

#### **Q: Have things unfolded in your career more or less the way you planned?**

**A:** The twists and turns have been surprising for sure. But being involved in public policy and taking on leadership roles in D.C. is inherently risky, and you have to build the highs and lows into your expectations. Overall, my career has been what I hoped. I enjoy the exchange of ideas and the opportunity to make a positive difference in policies that improve people's lives.

#### **Q: What's the most interesting or challenging thing that occupies you in your current position?**

**A:** Our Coalition members are very collegial and we often achieve consensus in our policy recommendations, so that is very gratifying. My major frustration and challenge at the SHLB Coalition is that we do not have enough staff and funding to participate in every proceeding where our member interests are implicated. Our top three areas of concentration are E-rate, rural healthcare and broadband infrastructure, but there are many other issues—such as broadband

mapping, state broadband initiatives, spectrum reform and 5G—where we could play a role if we had the time and resources.

#### **Q: What's something or someone that has surprised or impressed you during your career and why?**

**A:** I have to give kudos to Tom Cohen who hired me as a staffer on the Senate Commerce Committee; he always gave me great advice and taught me that public policy is not a math equation; it's not linear. And in terms of appreciation, I was always fond of Henry Geller's approach—he could express a public interest view that was strong and heartfelt but not confrontational.

#### **Q: What do you enjoy reading?**

**A:** I really enjoy reading historical biographies, which is something I guess I have in common with Tom Wheeler. I recently read "Founding Brothers, The Revolutionary Generation" by Joseph Ellis and I found it compelling. Thank goodness that our founders had the wisdom to institutionalize checks and balances—the judicial system, the free press—as mechanisms to preserve our democracy.

#### **Q: Can you share a perspective on pitfalls to avoid or other career advice for those who are just getting started in the communications field?**

**A:** I suggest that anyone starting out in the communications field seek out a diversity of jobs and experiences. I would encourage public interest advocates to spend time in federal agencies and on the Hill, and even in the private sector. I learned very different ways to think while at the FCC, on Capitol Hill, and working for commercial companies. Designing legislation and regulations to promote investment really requires an understanding of how businesses make investment decisions, but you should not simply defer to them. My final word of advice, for what it is worth, is that you shouldn't be afraid to change jobs to gain a new perspective.

#### **Q: What's something interesting about you that people are not generally aware of you that are willing to share?**

**A:** Well, for the last five years I've been learning how to sing opera. That interest came to me slowly and indirectly. I had been singing along with an Andrea Bocelli CD in my car for about two years when it hit me that I enjoyed it enough to seek out some singing instruction. At first, I wanted to sing Irish ballads, but my teacher said singing opera would be great training, and now I love it! My instructor says that I show promise, but he's been saying that for five years, so I'm not sure where it will lead.

#### **Q: How long have you been an FCBA member and what is the value of FCBA membership?**

**A:** I cannot say for sure if this year is my 20th or 25th anniversary, but by all means I am a long-time FCBA member. I find that the most compelling events are the brownbag lunches. It's so great to be able to get up to speed on something, often something I am supposed to know. The brown bag events feature true experts and a conversational approach that is very accessible.

On Thursday, February 8, 2018, the Young Lawyers Committee, in partnership with the Communications Law Forum of the Women's Bar Association of the District of Columbia, held the **Eighth Annual Mentoring Supper**. This year's Mentoring Supper featured many prominent practitioners acting as mentors to a diverse group of young lawyers, lawyers in transition and law students with an interest in practicing in the field of communications law. The event was very well attended, with about 120 mentors and mentees. Following introductions and announcements by **Lynne Milne** of the Communications Law Forum and **Rachel Nemeth** of the Young Lawyers Committee, **FCBA President Julie Kearney** of the Consumer Technology Association, provided inspirational mentoring advice from the podium.

**Elizabeth Cuttner** of Cinnamon Mueller LLC next explained that the evening's program was structured as three series of mentoring sessions. The mentors and mentees engaged in intimate and lively discussions of careers, professional development and advice for success, while enjoying a delicious buffet dinner. Mentees were encouraged to ask any questions of the mentors, including those about personal mentor-mentee relationships, career development and opportunities for professional growth. Mentors moved between three tables through the evening, allowing the mentees to meet and learn from as many as six mentors, and hear different perspectives about the varied career paths available to communications lawyers. Excellent mentoring continued throughout the evening, based on the specific circumstances of the mentees and the varied experiences in solving problems of the mentors.

In addition to the contributions of the co-chairs of the FCBA's Young Lawyers Committee – **Rachel Nemeth** of the Consumer Technology Association and **Sean Spivey** of Hogan Lovells US LLP – and two co-chairs of the WBA's Communications Law Forum – **Laura Mow** of The Law Office of Laura C.
