## PRESIDENT'S Message

The FCBA is excited to announce a new partnership with RandomCoffee!

Do you miss the regular opportunity to connect with FCBA members during this hybrid work time? Do you enjoy networking and meeting members of The Tech Bar? We do too!

So, the FCBA partnered with **RandomCoffee** to bring you a new networking opportunity. This program is open to all FCBA members and is a great way to connect with colleagues across the country!

Take a deserved break and meet up with someone from the FCBA (virtual or in person) just to make a connection. This is a completely random process so you never know with whom you might be matched!

We encourage you to take full advantage of the opportunity, but if you aren't interested, you can simply click on the unsubscribe link in a future RandomCoffee email.

We hope you are as excited as we are about RandomCoffee and making new connections with other FCBA members! Details are below, and you will soon receive an email from the FCBA with some additional information.

So how does it work?

1. Every month or so, you will receive an email from "RandomCoffee @ FCBA" or "fcba@my.random-coffee.com" asking if you are interested in meeting an FCBA member over coffee (virtual or in person).
2. If you accept, you'll receive a matching email within a few days, with the name of your coffee partner.
3. Contact your match to organize your meet-up (virtual or in-person); please do so within a week if possible.
4. You are not committed to do a match each month. You can simply decline or skip in a given month, and then resume when your schedule is better.
5. Also, you are not obligated to meet with your monthly match more than one time. You are always welcome to have more conversations but there is no obligation.
6. **Finally, if you want to opt-out of future RandomCoffee emails, you can unsubscribe at any time by clicking on the link in a future RandomCoffee email or by contacting the FCBA directly.**

We hope you take advantage of this unique FCBA membership opportunity.

Pursuant to the By-Laws, current President-Elect **Diane Holland** will become President on July 1, 2023, and **Jameson Dempsey**, Space X, will serve a second year as a Chapter Representative.

As of July 1, 2023, **Grace Koh** would have one year remaining on her elected term on the Executive Committee. However, she has been nominated to serve as Secretary. Under the By-Laws, if a vacancy occurs with respect to any elected member of the Executive Committee, the President, with the approval of the Executive Committee, shall appoint an individual to serve until the next election, at which time the membership shall elect an individual to fill the unexpired portion of the term. In accordance with the By-laws, Diane Holland, upon becoming President, will appoint an individual to serve on the Executive Committee to fill the vacancy and will present that appointment to the incoming Executive Committee for their approval. As the term of the vacated seat is scheduled to expire June 30, 2024, the same time that the next election results would take effect, there will be no need for a subsequent special election to fill the seat.

Pursuant to Article V, Section 21(c) of the By-Laws, additional nominations of candidates for the positions listed above may be made by Petition. The signatures of at least twenty-five (25) members of the FCBA must support each candidate nominated by Petition. ### Tuesday, March 14, 12:00 – 1:30 p.m. ET Keeping Families Connected: Developments in Communication Services for Incarcerated People

The FCBA Southern California Chapter and the Conference of California Public Utility Counsel will host a CLE Seminar on Tuesday, March 14 from 12:00 – 1:30 p.m. ET entitled Keeping Families Connected: Developments in Communication Services for Incarcerated People. This program will be held virtually via the Zoom platform.

Incarcerated communication services are critical to keeping families connected to their loved ones who are detained or incarcerated. Whether through voice or video calls or other means, the ability to communicate is vital. Federal and state laws and regulations for these services have changed in important ways in the past few years. The CLE will provide an overview of recent federal developments and a brief survey of state approaches. The program will open with a presentation on the FCC regulatory approach over the last decade and lead into a panel discussion of the federal and state policy issues, developments and perspectives on various incarcerated communication services.

**The FCBA will apply for 1.5 hours of MCLE credit from the VA Bar. This program has not yet been approved.**

### Tuesday, March 21, 2023, 2:00 – 4:30 p.m. ET Connecting the Globe: The Submarine Cable Industry Current and Future Trends

The FCBA International Telecommunications Committee will sponsor a CLE on Tuesday, March 21 from 2:00 – 4:30 p.m. ET entitled Connecting the Globe: The Submarine Cable Industry Current and Future Trends. This program will be held virtually via the Zoom platform.

We live in an increasingly wireless world, yet our ability to connect globally depends chiefly on underwater cables (also referred to as submarine cables, subsea cables, or undersea cables). This CLE will begin with an overview of the submarine cable industry, including how cable networks are built and maintained and how the industry's market has evolved and continues to develop. Following that overview, the first panel will address the federal and international regulatory landscape, including emerging challenges and national security concerns. The

second panel will provide insights into current industry projects and options for financing submarine cable projects to meet the current and future needs of operators and customers.

## Monday, March 27, 3:00 – 5:00 p.m. ET Understanding the Impacts of the Growing Patchwork of State Privacy Laws

The FCBA Consumer Protection and Privacy and Data Security Committees will jointly sponsor a CLE on **Monday, March 27 from 3:00 – 5:00 p.m. ET** entitled Understanding the Impacts of the Growing Patchwork of State Privacy Laws. This program will be held virtually via the Zoom platform.

2023 is a landmark year for consumer privacy legislation and regulation at the state level, with five new omnibus privacy laws are going into effect in California, Colorado, Connecticut, Utah, and Virginia. These new omnibus frameworks add to the growing patchwork of privacy laws at the state level, including privacy laws focusing on kids and teens, and biometric privacy laws, among others.

And without a comprehensive federal privacy law, other states are considering similar approaches.

This program will provide an overview and update about this evolving state privacy landscape; explore how these laws impact emerging technologies and data practices, including artificial intelligence and biometrics; and analyze recent enforcement actions and trends.

**The FCBA will apply for 2.0 hours of MCLE credit from the VA Bar. This program has not yet been approved.**

*Speaker:*

**Keir Lamont**, Director, Future of Privacy Forum

**3:20 – 4:10 p.m.**

### THE IMPACT OF STATE PRIVACY LAWS ON EMERGING TECHNOLOGIES AND DATA PRACTICES

During this panel, we will explore how the various legal frameworks across the states impact emerging technologies and data practices, including artificial intelligence and biometrics. Panelists will discuss specific consumer rights and controller obligations associated with automated decision making under the

new state laws and developing regulations in California and Colorado. Panelists will also discuss privacy obligations with respect to biometric data and personal information about kids and teens.

Spectrum makes make wireless work. But understanding the engineering fundamentals that drive wireless and satellite networks can prove challenging. The FCBA Engineering and Technical Committee is here to help. The Committee's upcoming Continuing Legal Education course entitled "Spectrum 101: Allocation, Coordination & Policymaking" will help separate fact from fiction and provide you with the tools you need to serve as a better advocate for efficient, cost-effective spectrum policy. The session's first panel will walk you through spectrum engineering basics, and the second panel will offer an in-depth discussion of some of the most important spectrum policy decisions facing regulators in the U.S. and around the world today.

**The FCBA will apply for 2.0 hours of MCLE credit from the VA Bar. This program has not yet been approved.**

## Agenda

**3:00 – 3:05 p.m.**

### **WELCOME AND INTRODUCTIONS**

**3:05 – 4:00 p.m.**

### **BASIC BUILDING BLOCKS**

The first panel will review radiofrequency communications and interference. Panelists will start by revisiting the building blocks of spectrum engineering, including signals, waves, modulation, transmission, propagation, reception, spreading, absorption, refraction, reflection, diffraction, and, ultimately, interference. Panelists will review the components and system architectures of various radio access networks and explain how these systems have changed over time. After analyzing the historical antecedents of today's networks, including broadcasting and multiple generations of cellular wireless communications networks, the panel will then explain how new wireless technologies, such as 5G NR and Wi-Fi 6 (IEEE 802.11ax), function and how engineers have optimized radiofrequency performance to suit the frequency bands in which these systems operate.

*Speakers:*  
TBA

**4:00 – 5:00 p.m.**

### **ADVANCED POLICY MAKING**

The second panel will explore how evolving wireless technologies, performance characteristics, and global technical specifications have created new tools—and new challenges—for spectrum allocations, assignments, and sharing. The panel will discuss how and why global standards for a new radio access technology, including 5G NR and a next-generation network architecture called 5G NextGen, have begun to influence domestic and international spectrum policy. Panelists will also consider how a new suite of IEEE unlicensed standards including Wi-Fi 5 (IEEE 802.11ac), Wi-Fi 6 (IEEE 802.11ax), and, most recently, Wi-Fi 6E, have begun to influence spectrum allocation decisions in the U.S. and around the world. Panelists will then analyze how terrestrial and satellite wireless broadband system design and performance characteristics promise to inform future divisions of spectrum resources among licensed, unlicensed, and managed spectrum and assignments now and in the future and whether new and emerging technologies warrant new systems of spectrum allocation and assignment.

*Speakers:*

# 29th Annual **NATIONAL TELECOMMUNICATIONS AND TECHNOLOGY MOOT COURT COMPETITION**

## **National Telecommunications and Technology Moot Court Competition**

The 29th Annual National Telecommunications and Technology Moot Court Competition, sponsored by the FCBA and the Law and Technology Institute at The Catholic University of America, Columbus School of Law, was held on February 3 and 4, 2023.

The competition involved ten well-prepared teams who competed at the highest level of appellate advocacy competition. Keeghan Sweeney and Caitlin Flanigan from the University of Virginia School of Law placed first at the competition, winning the Best Overall award. Second Place went to Yana Holden and Lauren Lehner from the George Washington University Law School, who also won the Best Brief award. Best Oralist went to Jordyn Johnson from the George Washington University Law School.

This year's competition problem considered the Federal Communications Commission's statutory authority to regulate communications equipment used in space, coupled with the related revocation of an equipment authorization issued to an entity on the FCC Secure Network Act Covered List. The problem was drafted by the co-chairs of the FCBA's Moot Court Committee Logan Bennett, Julia Haines, Stephen Conley, and Lee G. Petro.

The competition would not have been made possible without CUA Law 2023 J.D. Candidate and Vice Chancellor Thomas E. Archer. A highlight of the competition was the final round panel presided over by FCC Commissioner Brendan Carr, FCBA President Barry Ohlson, and Immediate Past FCBA President Megan Stull.

During the reception that followed the competition, Katherine Gamelin Crowley, CUA Law's Associate Dean for Student Affairs and Dean of Students, and FCBA President Barry Ohlson delivered remarks. The FCBA congratulates and thanks all of the student competitors, faculty members, and administrators who participated in the competition. It also expresses its gratitude to CUA Law and the many FCBA members who served as judges and graded the competitors' briefs.

### **THANKS TO OUR MOOT COURT FCBA MEMBER JUDGES!**

Oral argument judges were: Adam Copeland, Aimee Meacham, Andrew Magloughlin, Drew Clark, Eliya Bernstein, Hannah Lepow, Henry Wendel, Jacqueline Kinney, Jeffrey Carlisle, Joseph Miller, Joseph Calascione, Joycelyn Tate, Keenan Adamchak, Matthew Pearl, Michael Janson, Pamela Arluk, Rachel Wolkowitz, Rayiner Hashem, Svantje Swider, and Trey Hanbury.

Best Overall – Keeghan Sweeney and Caitlin Flanigan – University of Virginia School of Law

Brief judges were: Caitlin League, Chris Frascella, Danielle Thumann, Eric Lewin, John Gasparini, Justin Faulb, Kathleen Willis, Lisa Fowlkes, Ramesh Nagarajan, Shawn Bone, Stacey Zumo, and Travis Hahn.
